

Our School Vision : At St George's we are proud to be one family of lifelong learners who know they are special to God. Our family is built upon a strong sense of belonging and mutual respect. Our community gives our children the freedom to flourish and succeed.

... A flourishing fellowship: learning together with God by our side ...

Literacy:

Our focus is on handwriting, phonics and learning about the different types of words that make up a simple sentence, and how to construct a simple sentence correctly.

We will be continuing daily phonic sessions following our **new Little Wandle** reading scheme. We will start by revising the phonemes and tricky words learnt in reception before moving onto phase 5. This is a new scheme and covers both our reading and phonics.

Alongside the texts the children will be reading in their Literacy lessons, the children will also be engaging with a variety of diverse texts within their daily reading sessions and during our daily story times. The children will also have the opportunity to share their love and passion of reading throughout the half term.

Computing:

Learners will develop their understanding of technology and how it can help them in their everyday lives. They will start to become familiar with the different components of a computer by developing their keyboard and mouse skills. Learners will also consider how to use technology responsibly and safely.

PE:

1AA- Tuesdays and Thursdays

1VH – Thursdays and Fridays

Children to come to school in their P.E Kit on P.E Days.

Ball skills – To be able to show control, sending, receiving and travelling with a ball alone, in a group and with a partner.

Multi skills – To be able to try out new skills and activities using various equipment. To be able to play games that can change direction and change speed according to the instructions.

Mathematics: The children will develop their grasp of **number facts, fluency in place value, addition and subtraction**, and appropriate use of key **mathematical vocabulary** to solve problems, reason, think logically and work systematically. The children will develop their own **mathematics cultural capital** to better make sense of the world around them and become successful lifelong learners. We will be learning about the number system and calculations within 20, especially addition and subtraction. We will also practise counting carefully, ensuring one to one correlation and learning our **number bonds for all numbers within 10.**

RE: In R.E our scheme 'Understanding Christianity'. Our first topic is 'God: What do Christians believe God is like?' We will be exploring parables.

History/Geography: Our topics this term will start with 'Marvellous Me', where we will focus on where in the world we all come from and our different cultural heritages. We will also explore our own personal history and events that have happened within our living memory

Science: Throughout Year 1 our over-arching topic is 'Changing Seasons'. We will be investigating the differences between each season. This term we will focus on Autumn. We have planned a class visit to the Scadbury Park to investigate what happens to the trees and plants in the woods at this time of year. Whilst there we will also be identifying the different plants and trees that grow in our local area.

Art: In Art we will be exploring a range of portraits and self portraits by many different artists. We will be experimenting with a range of media before creating our own self-portrait.

Music: This half term the children will be exploring sounds. The children will learn how to control their voices to control pitch when singing.

Homework: Homework will be **sent out on a Friday** and should be **returned by the following Thursday**. Please ensure that the homework is kept in the plastic wallets provided. We will try to ensure any letters are also put inside these plastic wallets on a weekly basis. Please check *parentmail* for letters and notifications. Please encourage your child, if they are at a loose end, it is raining and they are bored, or they have to be at home isolating, to try an activity from the *optional* homework on the Home Learning Menu. The aim of the Home Learning Menu is to encourage children to take ownership of their learning and independently research areas of their learning that they are interested in. We would then encourage them to bring their work into school so they can present it to and share it with their peers so it can be celebrated.

PSHE: 'What is the same and different about us?' is our theme for PSHE this term and links with our topic 'Marvellous Me'. We will be thinking, and talking about how we are all similar but different, how we are all unique, and about our hopes and wishes. We will also be finding out about people who help us in our local community and beyond.

In order to celebrate the diverse community we have at St George's, each classroom will have a **Cultural Heritage** display, where the children can share ideas about their backgrounds.

Reading Books:

Your child will bring home a book of their choice to share with you. We will also be introducing reading books through our Little Wandle scheme in the next few weeks. Please read with your child for at least 10 minutes each day.

When reading with your child please take the opportunity to build their speaking and listening skills by engaging in conversations about the story that is being read.

Dates to remember:

Meet the teacher:

Phonics meeting:

1AA Scadbury Park: 10th October

1VH Scadbury Park 11th October

What you need and when:

Coat: Please provide your child with a named warm, showerproof coat every day.

Water: A named water bottle— this needs to be filled each day and brought into school.

Pencil cases: Please keep personal pencil cases at home. We will provide your child with any necessary equipment and stationery.

PARENTS: The school is always looking for an extra set of hands.....all children love to see Mum, Dad, Nan or Granddad helping out in school. Do you have any special skills you could offer? Can you garden, play games, make things...the list is endless! We would love any offers of help. If you are able to offer any help, please speak to the class teacher or one of our office staff.
